Organic Regenerative Energy Elixir for Gum Disease and Gum Pain

2 oz. (\$24.95) and 5 oz. (\$39.95)

This Organic, Raw Nutraceutical Elixir paste designed to be absorbed through your gum and sublingual mucosa. This is an all natural nutritional supplement for gum disease and rejuvenation. It is meant for people with such bad gum disease that the only thing they face is oral surgery. This has many things in it that is designed to kill off any bacteria that cause cavities, plaque and especially underlying anaerobic under the tooth - the ones that cause tooth pain. In addition, it has natural substances to slowly build up and regenerate the gum tissue. In scientific studies, these substances have been shown to release Stem Cells from the bone marrow, enhance Natural Killer T-cell populations, important in fighting cancer.

NOTE: This is concentrated - a little goes a long way to relieve gum pain. This elixir is designed to help eliminate the high costs of gum disease and dental procedures. Don't let the cost fool you into comparing this to other toothpastes that do nothing to help your gums. Think of the dental procedures you will not have to pay for. We have many testimonials to prove this. Please note that this is not FDA Approved and at no time do we claim that this prevents, cures or treats disease. Your results can and will vary. This is an all natural raw organic supplement.

This toothpaste is designed to:

- Kill Bacteria that causes cavities, gum pain and tooth decay
- Eliminate Pain
- Rebuild gum tissue
- Detoxify your body

NOVEL NEUTRACEUTICAL DELIVERY SYSTEM

We pack it full of powerful herbal essential oils and tissue regeneration factors not found in any toothpaste out today - FACTORS CLINICALLY SHOWN TO INHIBIT CANCER AND ENHANCE YOUR IMMUNE SYSTEM. So when you brush with this paste, you are actually absorbing supplements into your body that will help you become and remain healthy. This is how: it also has special mineralized magnetic earth that we believe opens the pores of your gums to actually shuttle molecules across the mucous membrane. We call it **active transport**, and by bypassing the stomach and small intestine, these molecules do not get broken down by the liver. Most toothpastes, to keep the prices down, are quite cheap and don't have enough power in them to actually kill the bad bacteria, let alone rebuild the tissue and deliver important healing factors to your body.

SACRED GEOMETRY AND MESSAGES ON LABEL

Following the studies of Dr. Masaru Emoto ("What the Bleep" movie fame), we have specific sacred geometry and words to restructure the crystalline properties of the paste. Your body will feel the healing power of this elixir the first time you use it.

INSTRUCTIONS

Use a small dab. Place on tongue and shish. **It is essential that the botanical extracts and essential healing oils in this paste SWISH THROUGH your gums and teeth for 15-20 min.** This is a technique known as "Oil-Pulling" - you are in the process of detoxification and healing. Swishing activates the enzymes and the enzymes draw out and inactivate toxins in the blood. As the process continues, the oils gets thinner. After you Oil-Pull, you can swallow the paste - this is a natural raw food meant to be eaten. It has many substances that help blood circulation, detoxification and cardiac health! You will have a slight chalky after taste, but this is because of the magnetic mineral clay. Your teeth, however, will be whiter, due to the natural oxidating effects of the earth and silica.

The more you use this, the more you will agree that your mouth and gums have never looked whiter and felt better in the morning. It is important to understand that during the oil-pulling/swishing process one's metabolism is intensified. This leads to improved health. One of the most striking results of this process is the fastening of loose teeth, the elimination of bleeding gums and the visible whitening of the teeth.
